Greyhound Inn, Melton Road, Burton On The Wolds, Leicestershire) planning permission be granted subject to the conditions, reasons and advice notes set out in the report of the Head of Planning and Growth and additional conditions as follows:

No development shall take place until the applicant or developer has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted to and agreed in writing by the local planning authority, and no development shall take place except in accordance with the approved details.

REASON: To ensure that any features of archaeological interest are protected or recorded.

No development, including site works, shall begin until a landscaping scheme for the site as a whole, including the public house car park edged blue on the submitted Site Plan, to include those details specified below, has been submitted to and agreed in writing by the local planning authority:

- i) the treatment proposed for all ground surfaces, including hard areas;
- ii) full details of tree planting;
- iii) planting schedules, noting the species, sizes, numbers and densities of plants;
- iv) finished levels or contours;
- v) any structures to be erected or constructed;
- vi) functional services above and below ground; and
- vii) all existing trees, hedges and other landscape features, indicating clearly those to be removed.

REASON: To make sure that a satisfactory landscaping scheme for the development is agreed.

The car park and housing landscaping scheme shall be completed, in accordance with the details agreed under the terms of the above condition, in the first planting and seeding seasons following the implementation of the revised car park layout and first occupation of any dwelling respectively, or in accordance with a programme previously agreed in writing by the local planning authority. Any trees or plants removed, dying, being severely damaged or becoming seriously diseased, within 5 years of planting shall be replaced in the following planting season by trees or plants of a size and species similar to those originally required to be planted.

REASON: To make sure that the appearance of the completed development is satisfactory and to help assimilate the development into its surroundings.

No development including site clearance or levelling works shall take place until a construction method statement has been submitted to and approved in writing by the Local Planning Authority. This statement shall include the following:

- construction parking facilities
- details of deliveries and storage of construction materials
- hours of construction and building works/operations

The development shall only be carried out in accordance with these details, unless otherwise agreed in writing.

REASON: To minimise the impact of the construction period on the amenity of adjacent residents and to ensure highway safety. This information needs to be submitted prior to commencement of the development as it relates to the construction work itself.

5. that, in respect of P/22/0694/2 (Mr Tristan John, 28/30 High Street, Quorn, Leicestershire, LE12 8DT) planning permission be refused on the grounds of concerns over highway safety set out on page 151 of the report of the Head of Planning and Growth, i.e:

In the opinion of the Local Planning Authority, the residual cumulative impacts of the development would be severe in accordance with the National Planning Policy Framework (2021), because the proposals would result in on-street parking in a location where parking is restricted, which would be detrimental to highway safety and hence contrary to paragraphs 110 and 111 of the National Planning Policy Framework (2021).
