

Panel Response to Draft Leicestershire Resources and Waste Strategy 2022-2050

Charnwood Borough Council's Waste Management Scrutiny Panel has considered the 11 pledges and the collection options appraisal set out in the draft Leicestershire Resources and Waste Strategy 2022-2050 and wishes to make the following comments:

1. The Panel supports Pledges 1-11.
2. In respect of Pledge 8, the Panel would like to see items that are more difficult to recycle included, for example Terracycle items, coffee pods, crisp packets.
3. No consensus was expressed by the Panel regarding a preferred collection option, although 2 members preferred option 3 or option 5A.
4. The Panel was concerned regarding cost and considered councils would need Government financial support to implement.

*Councillor Emma Ward, Waste Management Scrutiny Panel Chair (on behalf of the Panel).*
