2022-23 QUARTER 2 PERFORMANCE MONITORING REPORT

Purpose of Report

To provide performance monitoring information and results for the second quarter of 2022-23, in respect of the Corporate Delivery Plan Objectives and Key Performance Indicators for Charnwood Borough Council.

Action Requested

The Committee is requested to note the performance results; associated commentary and the explanations provided.

Reason

To ensure that targets and objectives are being met, and to identify areas where performance might be improved.

Policy Context

Quarterly reporting of performance is a key element of monitoring progress towards delivering the Council's Corporate objectives and initiatives as set out in the Corporate Delivery Plan.

Background

The Committee receives performance reports on a quarterly basis to allow it to monitor progress against achieving the agreed targets which support the delivery of the Council's objectives as set out in the Corporate Strategy (2020-2024) and Corporate Delivery Plan for 2022-2023. As part of the scrutiny arrangements, it is envisaged that the Committee will be forward and outward looking and review performance through investigating how performance can be improved.

The attached report presents detailed performance results for quarter two 2022-23 of the third year of the Corporate Strategy (2020-2024) for Charnwood Borough Council. It provides explanations and commentary in respect of poor performance or non-achievement of targets and details of remedial actions being taken where appropriate. The report focuses on detailed information and dashboard reporting to provide the Committee with the information required to sufficiently scrutinise performance.

As agreed at the Cabinet meeting on the 7<sup>th</sup> April 2022, indirect key performance indicators have been removed from the Corporate Delivery Plan for the reporting period 2022/23 and will be replaced with a suite of place indicators. These will be shared 6 monthly and a further update is provided in appendix B of this report.

The reason for this change is to provide an overview of key place information for Charnwood Borough Council, benchmarking these against the regional picture in order to provide wider context and comparison. As the 2021 Census survey data begins to be released in tranches, this data will play a key role in supporting this aim.

### Options Available with Reasons

The Committee has the option to use the performance information to suggest new items for the work programme of the Finance and Performance Scrutiny Committee.

### Financial and Legal Implications

None directly arising from this report.

### Risk Management

The risks associated with the options available and proposed actions to mitigate those risks are set out in the table below.
