

**Follow Ups: Recommendations Not Implemented (incl. partially and/or no response) By the Agreed Date,
as at 31st December 2018**

Audit	Observation	Recommendation	Priority	Agreed Action	Agreed Date	Responsible Officer	Comments
Risk Management 2017/18	2.					Audit & Risk Manager	Deferred - Awaiting approval of revised strategy and training thereon.
Garden Waste Scheme 2018/19	3.						Originally deferred until January 2019 due to staff absence but now implemented as per follow up in January 2019.
Staff Allowances and Expenses 2018/19	4. There is no centralised record which confirms the posts that attract essential user's allowance.	A review is undertaken to identify those posts where the duties are of such a nature that it is essential for them to have a vehicle at their disposal, ensuring that any exceptions to the posts identified have appropriate approval	Low.	Consideration will be given to placing a flag on iTrent identifying if the post qualifies for essential car user. Ensure that the JD/PS reflect the fact that the post is essential car user	Dec 19	Improvement and Organisational Development Manager/Systems Analyst	Partially implemented, a flag has been placed on iTrent identifying the people who are receiving essential car user. Further work required to ensure JD's/PS reflect the posts essential user status. The subsequent update, confirmed that the recommendation had been implemented.
Key ICT Controls	8. Controls need to be tightened in	ICS should ensure that controls are	Low	8. Agreed as	Apr 18	ICT Service	Deferred - Awaiting changes required to the

	medical records and personal contact information.			reviewed – QLLive, SQLsrvr (4-8), PNCDBSERVER, LAGANDB and LAGANBI			
ICT Key Controls 2017/18	11. Not all database servers in the sample reviewed were subject to pro-active monitoring using Idera, this included the live databases for the Lifeline (PNC) application which had 'very high' accessibility requirements and classified as critical in the business continuity plan.	We recommend that management reviews the maintenance and monitoring procedures for all critical production database servers.	Low	<p>Due to licence costs, only larger systems/key databases are monitored.</p> <p>Cost of implementing additional licences will be reviewed.</p> <p>Due to the high availability requirement, PNC application has a mirrored database at the Council's Disaster recovery site</p>	ICT Service Delivery Manager	November 2018	No response at time of follow up, but subsequent update received confirming that additional licence has been purchased for PNC
ICT Key Controls 2017/18	3. There was no formal schedule for reviewing the access control permissions set on the department directories on the file	We recommend that management implements a schedule and assigns responsibility for reviewing	Low	Access control permissions will be reviewed with Services as part of the ICT SLA meetings every	ICT Service Delivery Manager	December 2018	No response at time of follow up, but subsequent update received confirming that review undertaken as part of ICT SLA meetings.
