The Prevention of Crime and Disorder

When drunk people leave events where alcohol is served, they cause anti-social behaviour – shouting and loud voices currently being the main issue of disorderly behaviour.

Public Safety

Recently the hotel built several rentable dwellings within its grounds which required extra vehicular access onto a dangerous bend on part of Wood Lane where the national speed limit exists.

If they plan to be hosting more/longer events outdoors for up to 500 people this means potentially an even higher number of vehicles will be entering and exiting the hotel entrance; it is already difficult to locate and on a dangerous blind bend. In the past, I have witnessed, many, many times, drivers/visitors who are looking for the hotel entrance - drive up and down Wood Lane dangerously slowly.

The Prevention of Public Nuisance

The noise and disturbance from the hotel is of great concern to us. The natural geography of the land, in the neighbouring area, means that noise from Quorn Grange Hotel travels far away from the hotel. That noise becomes horribly distorted - especially concerning those events that in the past they have held outside and even from discos set up inside when their doors and windows are open.

The Protection of Children from Harm

The existing noise pollution from the hotel including anti-social shouting from drunk guests and loud music from disco's or live bands and other amplified events already disrupt my child's sleeping pattern which causes distress and harm to her wellbeing.

Please provide as much information as possible to support the representation

(Please read guidance note 2)

During the Covid-19 pandemic and lockdown, the peace and quiet in my house and garden has been notable. The hotel, when it was open, caused quite a large amount of noise pollution (empty bottles being tipped into their bin first thing in the mornings etc) to the local environment.

There is also the issue of the fireworks on the "usual" dates (Nov 5th, 31st Dec etc) and sometimes additional dates that the hotel management deem necessary. Fireworks are bad for the environment as well as the very close residential population's pets.

On occasions in the past, musical noises that Quorn Grange Hotel has emitted have been enough to make the ground in my garden throb and at times we could hear the DJ talking in our bedrooms even with the double-glazing windows closed.

Currently, the hotel has no idea of their business's operational impact on the local residents. Overall, it would just be much more sociable if they could turn their volume down to a reasonable level at every future event they hold.

I have not spoken out about this matter before, but under the current licensing review felt it was a good time to do so.
